

Caddy MT Conveyor – Mat Top

The MT is ideal for tray and tray-less application. The MT Conveyor sits flat in the bed for a clean and streamline look. Its side easy glide tracks help keep it quietly moving smoothly without pitting the bed. The breathable Mat Top will not only allow for food and debris to drain through but help reduce odors compared to traditional slat belt or tray-less belt options. The MT comes with a built in Mat Top washer that cleans from the top and the bottom. It also can be taken off the bed by pulling a quick release rod and the entire top can be machine washed. The durable top can handle up to 45 pounds per foot and can go over 50 ft. on a single drive saving money and making for an easier installation. The attractive top is also perfect for cafeteria drop off windows.

Features and Benefits:

- MT Widths- 6in,12in,15in,18in,24in,30in
- Works with tray & tray-less , bus tubs, and dish racks
- Long runs on a single drive
- Can handle most dish room turns
- Durable smooth gliding and quiet
